The process of global commitment. Different issues were discussed including the role of science in supporting SDGs and advancing partnership for sustainable development. Mishkat offered many associated events and activities inside or outside the exhibition spaces.

After the success of ISCSMD 2016, the plan is to make it an annual event, and the preparations for ISCSMD 2017 will start in January 2017. The field trip focuses on infrastructure and its effect on development of neighboring rural villages.
